

North Scott Music Boosters

“Helping Lancers Reach the High Notes”

Dear Music Booster Patron,

The students of the North Scott School District are indeed fortunate to have such a generous community backing their many musical endeavors. As members of the North Scott Music Boosters, we thank you for the financial support you showed our students through your past participation in our Music Booster Program. Thanks to your generosity the Music Boosters purchased a saxophone, gong stand, bell carts, choir flip-form risers, microphones, computer software, and musical arrangements. Last year we were especially proud to award four \$500 college scholarships to graduating seniors, which we will continue to do each year. Without your support these purchases would not have been possible.

As you are aware, the North Scott School District has been supportive of the arts; however, recent budget constraints are making it more and more essential to seek outside funding for the music program. We realize that businesses and families have only so many dollars to spread among any number of worthy causes and organizations, and this year we are asking you to again consider adding the high school's music department to your list of beneficiaries.

The patron program makes it possible for businesses and individuals to be involved on a variety of levels, and one of its unique aspects is a season pass/voucher system that provides donors free admission to some vocal and instrumental performances. In light of the contributions you already make, the Music Boosters feel it is important that patrons receive a little something extra in return for their continued support. Details of the program can be found on the enclosed sheet. (If you are downloading this from the web page, we invite you to download the donation chart/form for said details.)

Thank you for considering a donation to the North Scott Music Boosters Patron Program.

Sincerely,

Cindy Wolf
